Message from Principal

Teaching Primary students is very challenging and it requires special skills. We all know it is the foundation for academic development of every child. The effervescent enthusiasm of the primary children has a lot to offer to each one of us, be it their cheerfulness, their camaraderie or their ability to drive away the blues effortlessly. This newsletter displays the work done by our Primary students, which fills us with happiness and pride. Best wishes to the team, KV AFS Yelahanka!

Dr. Nutan Punj
Principal

Message from Headmistress

I am very happy to release the 2nd edition of the student's newsletter. It is an effort to showcase the innate potentials of our little ones and encourage them to scale greater heights.

MY-MOTHER

I always think whom, I like the most. The result comes up always same. My mother, who is so lovely and caring. It is only she who understands my feeling. It is only she who is supporting. My mother is affectionate, faithful, loving and caring. My mother is as valuable as gold and I pledge to take care of her when she is old.

BOOKS

My dear friends
We always want fun
We have changed
The definition of fun

Playing video games
Has become our habit
We have forgotten to play
We have forgotten our reading habit.
Do you know.....

The books are a treasure
And reading is a pleasure
They give us knowledge and enjoyment
Books of poetry and books of prose,
Books of stories and of great heroes
One can never be alone
If a book is by our side
They are our best friends
With knowledge far and wide.

MY INSPIRATION-DR APJ ABUL KALAM

Since I have started learning EVS and also understanding the world around me, I am fascinated and curious by the various facts of science I have learnt. I want to become a scientist in future and my inspiration is none other than Dr. APJ Abdul Kalam. He had a very poor financial condition in his home but he never gave up on education. He has made countless contribution for our country but famous contribution that is the development of missiles that goes by name Agni and Prithvi. He is also known as a missile man. I also want to become like him and spread my knowledge to the world which will help the man-kind to live happily. I am sure that I will do hard work to achieve my goal, that will be my contribution and one day I'll bring my country top of the world.

एक सवाल!

आजो पूछे एक सवाल!
मेरे शिर में कितने बाल?
कितने आसमन में तारे?
बतलाओ या कह दो हारे!

जदियाँ क्यों बहती हैं-यान?
चिहियाँ क्या क्यों हैं बाम?
क्यों कुत्ता बिल्ली पर घाए?
बिल्ली चूहे को क्यों खाए?

फूल कहाँ से पाते रंग?
रहते क्यों न जीव सब रंग?
बदल क्यों बदलते पानी?
क्यों क्यों करते बीतली?

माली की क्यों शिकुड़ी खाए
अजी, न ऐसा करो सवाल
यह सब ईश्वर को माया है,
इसको कौन ओल पाया है?

Vedic Maths Methods

Sutras :-

- * Rekha Ankan Padhati (line calculate)
- * Nikhilam Sutra (subtraction).

Multiplication of -

$$4686 \times 9999$$

$$46855314$$

$$1946 \times 9999$$

$$19458024$$

Steps:- Subtract 1
from 4686 then add
with any number which
you will get 9 answer.

Division by 9 and 5 :-

$$3 \overset{+3}{2} \overset{+5}{1} \overset{+6}{2} \overset{+8}{1} \div 9 = 3568.9$$

$$3 \ 5 \ 6 \ 8 \ . \ 9$$

$$331024423 \div 5$$

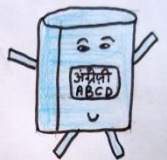

$$66204884.6$$

Steps:- First double the one one
digits and add them. Put
the point before one digit from
end.

किताबें

प्यारी होती हैं किताबें
उमने होती हैं सारी बानें।
किताबों से रोने-पल्लव पत्र
जगता है हरे की उमके निर।

सोचिएत इंटरनेट छोड़ो ब्रॉड
किताबों से तुम भी कुछ सीखी
नया।
हिंदी, अंग्रेजी, गणित, विज्ञान
कुछाइत हने देती हैं
गानत रही का जात।

अलग-अलग अकार की होती हैं किताबें
कुछ छोटी होती हैं तो
कुछ हने बगनी हैं।
हैं किताबों की अकार
जो देती हैं हने अकार।

"Learning gives creativity, Creativity Leads to thinking
Thinking provides knowledge, Knowledge makes you great."
